Message from the President

Class of 2010

Alumni Placement Survey

I am very pleased to present The College at Brockport Alumni Placement Report that is based on results from the Class of 2010 Survey conducted by the Office of Career Services.

This important report represents extensive research in collecting and analyzing information on the Class of 2010 for both undergraduate and graduate programs. Student success is the #1 priority of the College. This report provides valuable information to help us determine whether or not we are successful in preparing our graduates for their professional future and to tailor our services for student success. Based on the data we received from our 2010 alumni, The College at Brockport can be proud of the quality opportunities and services that have been, and continue to be, provided to ensure the success of our recent and future degree recipients.

This year, we achieved a 61% response rate for the baccalaureate degree survey and a 62% response rate for the master's degree survey. Of all 2010 bachelor's degree respondents, there was a 92% placement rate. A "placement" is a graduate who is employed, enrolled in graduate school, or doing both. Placement rates for previous years are consistently between 90 and 93%. I am proud to report that 88% of employed bachelor's degree recipients work in the state of New York. The remainder of our graduates report working in 21 other states as well as 2 foreign countries.

I hope that you find this annual resource on The College at Brockport's employment and graduate school statistics informative and useful. Any questions or comments regarding the survey and report should be directed to the Office of Career Services at (585) 395-2159.

Sincerely,

John R. Halstead, PhD
President
