## STATE UNIVERSITY OF NEW YORK

The State University of New York's 64 geographically dispersed campuses bring educational opportunity within commuting distance of virtually all New Yorkers and comprise the nation's largest comprehensive system of public higher education. As a comprehensive public university, State University of New York provides a meaningful educational experience to the broadest spectrum of individuals. More than 414,170 students are pursuing traditional study in classrooms and laboratories or are working at home, at their own pace, through such innovative institutions as the SUNY Learning Network and Empire State College.

Of the total enrollment, approximately 36.6 percent of the students are 25 years of age or older, reflecting State University's services to specific constituencies, such as training courses for business and industry, continuing educational opportunities for the professional community, and personal enrichment for more mature persons.

The State University's students are predominantly New York state residents. Representing every one of the state's 62 counties, they make up more than 96 percent of the University's undergraduate student population. State University of New York students also come from every other state in the United States, from four US territories or possessions, and from more than 170 foreign countries. The State University enrolls 40 percent of all New York state high school graduates, and its total enrollment of more than 414,170 (full-time and part-time) is approximately 37 percent of the state's entire higher education student population. Between 1976 and 1997, the University recorded a 167 percent increase in the enrollment of African, Asian, Hispanic and Native Americans, compared with a 63 percent average increase among colleges and universities across the state. Today, nearly 80,000 minority students (19.3 percent of the student population) are enrolled in SUNY.

Because of its structure and comprehensive programs, the State University offers students a wide diversity of educational options: short-term vocational/technical courses, certificate programs, baccalaureate degrees, graduate degrees and post-doctoral studies. The University offers access to almost every field of academic or professional study somewhere within the system—some 6,688 programs of study overall.

Curricula range from those in the more conventional career fields, such as business, engineering, medicine, teaching, performing arts, social work, finance and forestry, to those concerned with tomorrow's developing and societal needs in the areas of environmental science, urban studies, immunology, information systems, biotechnology, telecommunications, microbiology and health services management.

As part of the University's commitment to bring to the students of New York the very best and brightest scholars, scientists, artists and professionals, the State University's distinguished faculty is recruited from the finest graduate schools and universities throughout the United States and many countries around the world. Their efforts are regularly recognized in numerous prestigious awards and honors, including the Nobel Prize.

The State University's research contributions are helping to solve some of today's most urgent problems. At the same time, contracts and grants received by University faculty directly benefit the economic development of the regions in which they are located. State University researchers pioneered nuclear magnetic resonance imaging and the supermarket bar code scanner, isolated the bacteria that causes Lyme disease, developed the first implantable heart pacemaker and the drug ReoPro®, recommended for heart patients, and developed Avonex®, an interferon treatment for multiple sclerosis.

The University's program for the educationally and economically disadvantaged, consisting of Educational Opportunity Programs (EOP) and Educational Opportunity Centers (EOC), has become a model for delivering better learning opportunities to young people and adults traditionally bypassed by higher education. Over the past 30 years, more than 482,000 New York state residents have been served.

The 30 locally-sponsored two-year community colleges operating under the program of the State University offer local citizens programs that are directly and immediately job-related as well as

degree programs that serve as job-entry educational experience or a transfer opportunity to a baccalaureate degree at a senior campus.

In 1998, the Governor and the Legislature approved a multi-year, \$2 billion capital construction program for the University. This investment in critical maintenance will protect the University's infrastructure, valued at nearly \$11 billion, and enable the University to keep pace with modern technology for the benefit of its students and faculty.

The State University's involvement in the health sciences and health care is extensive and responsive to the rapid changes in society and the growing needs identified by the state's public health community. Hundreds of thousands of New York's citizens are served each year by medical and health sciences faculty and students in University hospitals and clinics or affiliated hospitals.

The University's economic development services programs provide research, training and technical assistance to the state's business and industrial community through Business and Industry Centers, the New York State Small Business Development Center, the Strategic Partnership for Industrial Resurgence, Rural Services Institutes, the Trade Adjustment Assistance Center, Technical Assistance Centers, Small Business Institutes, Centers for Advanced Technology, and international development.

The University passed a major milestone in the mid-1980s when it graduated its one-millionth alumnus, and currently numbers 2.4 million graduates on its rolls. The majority of the University's alumni reside and pursue careers in communities across New York state, contributing to the economic and social vitality of its people.

The State University of New York is governed by a Board of Trustees, appointed by the Governor, which directly determines the policies to be followed by the 34 state-supported campuses. Community colleges have their own local boards of trustees whose relationship to the State University Board is defined by law.

The University's motto is: "To Learn —To Search —To Serve."

## ALMA MATER

Alma Mater, thy children raise  
To thy shrine deserved praise.  
Hope and courage thou dost impart  
To each loyal student heart.

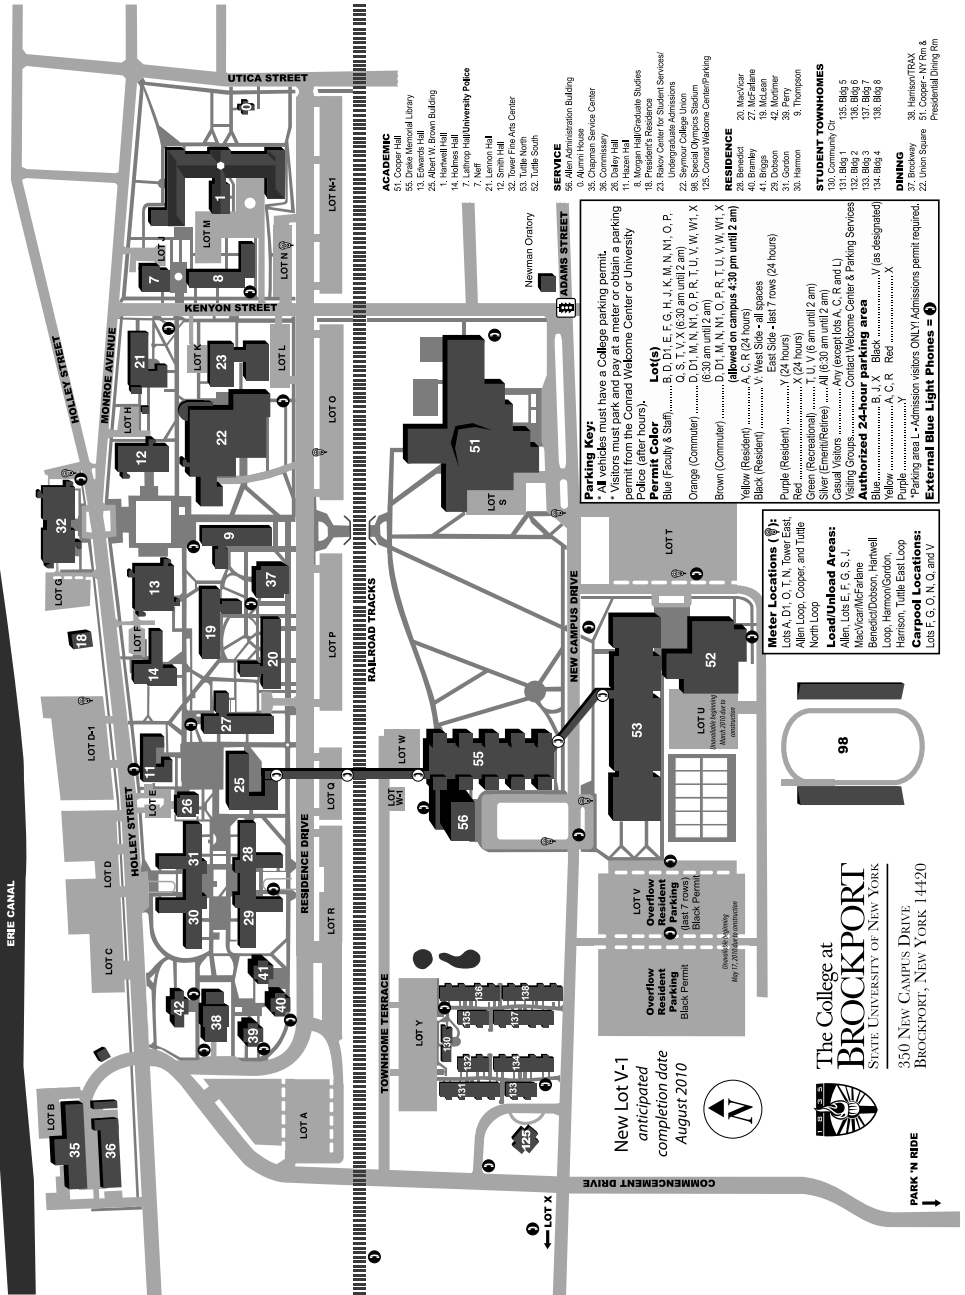

Friendly flowers and stately trees  
Lend new perfume to the breeze.  
Dear old campus, lofty halls,  
Alma Mater, we love thy walls.

When the fleeting years divide  
Us from thee, our gentle guide;  
Still our thoughts with thee shall rest,  
Alma Mater, Dearest, Best.
