The Department of English offers a wide range of courses in American, British, and world literatures, composition and creative writing—including workshops in poetry, fiction, and creative nonfiction. The English major is tailored for students who wish to pursue a passion for reading and writing, and for those who seek a general education in literary studies as they plan for careers in education, law, business administration, public relations, advertising, or government—indeed, any field where effective use of the English language and critical thinking skills are seen as essential to a broad humanistic perspective. Our majors choose between a literature or creative concentration (outlined below), where their course work is designed to develop both analytical and creative skills. As an alternative, the English minor gives students an opportunity to select courses appropriate to their individual needs and interests. Students majoring or minoring in English must complete at least 50 percent of their course work (18 credits for the major, nine credits for the minor) at SUNY Brockport.

Major Specialties in English
Students who major in English must select a 36-credit major from one of two options: literature or creative writing.

Option 1: Literature
The English Major—Literature focuses on English, American, and world literatures and affords students extensive practice in critical analysis and writing. The Literature track provides strong preparation for elementary and secondary teachers, for professional careers in business and law, and for the further study of literature in graduate school.

General Guidelines: Literature courses include the genres of poetry, fiction, film, drama, and the essay. Most majors take about 40–45 credits in English. In selecting their required courses, electives, or other courses beyond the 36-credit minimum, students are encouraged to construct personal concentrations in such areas as: American, British, or world literature; film studies; women writers; modern literature, etc., or to explore the diversity of English studies. Individual courses fulfill only one requirement in the major, and only liberal arts courses (designated by an A) can be used to satisfy the 36-credit minimum requirement.

Teacher Certification Students (elementary schools): Students preparing for teaching in elementary schools are strongly advised to take ENL 305 Advanced Composition and ENL 482 Children's Literature.

Preparation for Business, Law and Public Service: Literature courses which emphasize psychological, social, and verbal analysis provide a solid basis for the type of critical thinking needed in professional positions, while courses in writing, business communications, journalism/publication, etc. provide a solid basis in communications skills central to these areas.

Minor in English
The minor in English allows students majoring in other disciplines to construct a program of study in English that will be appropriate to their individual interests and prospective careers.

English Minor Requirements
The minor requires 18 credits, including ENL 303 Introduction to Literary Analysis with a grade of "C" or better. Of the additional five elective courses (15 credits), at least two must be at the 300 level or above, and only one may be at the 100 level.

Students may wish to construct their individualized English minor around concentrations in such areas as American literature, British literature, film studies, women writers, cultural studies in literature, writing, and modern literature. It is also acceptable to simply choose five electives of interest.

Student Life
The Writers Forum provides exposure to significant contemporary writers and critics. The English Club offers a variety of activities, including the publication of student writing. Sigma Tau Delta, an international honor society, recognizes significant academic accomplishment. Awards are available for student scholarship, and outstanding literary-critical, fiction, poetry, and non-fiction writing.

Study Abroad
Study-abroad programs sometimes are available. Information is available in the Office of International Education.

May include writers such as Hersey, Okada, Friedan, Sontag,Mailer, and Ginsberg. 3 Cr.

**ENL 435 Modern American Poetry (A).** Provides an investigation into the formative period 1910 - 1945 of 20th-century American verse, emphasizing significant figures from Robinson, Lowell, and Frost to Cummings, Stein, and Eliot. 3 Cr.

**ENL 436 Postmodern American Poetry (A).** Provides an investigation into American verse written after the mid-20th century, emphasizing figures such as Berryman and Lowell, as well as their contemporaries Plath and Sexton, and significant poets from more recent times. 3 Cr.

**ENL 437 American Gothic (A).** Starting with Poe, Brockden Brown and Hawthorn, the course traces the evolution of the Gothic to the present day. Includes other writers who've struggled to portray "the power of darkness": Bierce, Gilman, Lovecraft, Faulkner, O'Connor, Oates and Koja. 3 Cr.

**ENL 438 American Poetry: Bradstreet to Whitman (A).** A survey of American verse from its beginnings to the late 19th century, emphasizing representative poets such as Bradstreet and Whitman. 3 Cr.

**ENL 439 Asian-American Literature (A,D,I,W).** Explores Asian-American literature and culture both historically and thematically with an emphasis on the development of Asian-American literary voices and identities from the mid-20th century to the present. Includes major works of fiction, poetry, drama, prose, film, and critical and theoretical essays to facilitate discussion. 3 Cr.

**ENL 440 Literature of the American Family (A,I).** This course will focus on the family, family
interaction, and family problems in modern American literature. Primary and secondary readings in sociology and history will be used to provide a critical perspective on this topic. 3 Cr.

**ENL 441 American Literature: 19th Century Women's Novel (A,W).** Cross-listed as WM S 441. Provides an intensive study of the novel as a form of women's self-representation and cultural criticism. May include novels about family life, anti-slavery and temperance, slave narratives; historical novels; and representations of urban and industrial experience. 3 Cr.

**ENL 442 Topics in Women's Literature (A,W).** Cross-listed as WM S 442. Provides advanced study of women in literature and women's literature, focusing, for example, on some aspect of female lives, such as adolescence; on one or more female authors writing in a shared tradition, genre, or period; or on women writing on a common topic or from perspectives held in common. 3 Cr.

**ENL 445 American Modernism (A).** Focuses upon writers of the first half of the 20th century who defined American modernism by consciously breaking away from artistic conventions of the 19th century through experimentation in language, form, style and a heightened awareness of writing itself. Writers may include Pound, Stein, Hemingway, N eale H urston, Hughes, and Faulkner. 3 Cr.

**ENL 446 American Writers and Travel, 1870-1930 (A).** Provides a study of significant American authors treated singly or in coherent combinations. Content varies, with appropriate subtitles provided. May be repeated for credit with significant change in focus. 3 Cr.

**ENL 450 Standard English and Its Varieties (A).** Examines the development of Standard English and other varieties from a sociolinguistic, historical perspective. Provides a study of language acquisition, regional and social dialects, and the distinction between grammar and usage. Includes practice in and testing of contemporary usage. 3 Cr. Every Semester.

**ENL 451 Linguistics (A).** Prerequisite: Junior or senior status. Provides a study of phonology, morphology, syntax, semantics, and sociolinguistics. 3 Cr.

**ENL 455 Sociolinguistics (A).** Prerequisite: Junior or senior status. Provides a study of language in social context. Analyzes problems in social dialects and communications, jargons, slang, bilingualism and language of social conflict. 3 Cr.

**ENL 457 Women and Film (A,I,W).** Cross-listed as WM S 457. Focuses on films by women. Considers the following questions: Have women filmmakers depicted the world differently from “dominant” cinema? What possibilities exist for forms of “feminine” film discourse that are truly different from dominant film discourse? What has been the history of women filmmakers? How many of these women have indeed tried to speak a different “language”? 3 Cr.

**ENL 458 Great American Film Actors: Selected Topics (A).** Closely studies great actors of American film who have lent their unique talents to film tradition and analyzes the artistic, social, personal, and cultural aspects of these actors and their careers. Focus and actors selected may vary, but may not be repeated for credit. 3 Cr.

**ENL 460 Great American Film Directors (A).** Using various critical perspectives, provides an in-depth study of major films of selected American film directors—Hitchcock, Capra, Welles. Specific focus shown by subtitle. May be repeated for credit with significant change in focus. 3 Cr.

**ENL 462 Selected Topics in Film (A).** Explores significant themes and/or eras in film, for example: films of the 1950s, romantic couples, musicals, detective and western films, and film noir in cultural context. Specific topics shown by subtitle. May be repeated for credit with significant change in topic. 3 Cr.

**ENL 463 Great International Film Directors (A).** Using various critical perspectives, provides an in-depth study of major films of selected international film directors. Normally focuses on two or three directors such as Fellini, Ingmar Bergman, Truffaut, Renoir, Eisenstein, Sagawa, and others. Specific focus shown by subtitle. May be repeated for credit with significant change in focus. 3 Cr.

**ENL 464 The Film Star (A).** Focuses on the contribution of the actor to the film, differences between acting for silent and for sound films, and differences in acting on stage and in film. Screens films and provides for discussion. 3 Cr.

**ENL 465 American Film Comedy (A).** Surveys the development of American comic style in film from the silent era to today. Requires screenings of films from Sennett’s “Keystone” slapstick to Allen’s cerebral comedy. Explores the function(s) of comedy, the theory of laughter, comic visions of America, and personal style vs. genre in comedy. 3 Cr.

**ENL 466 Studies in Literary Modes (A).** Provides a study of an important literary mode through reading, analysis, and creation of selected works within selected mode. 3 Cr.

**ENL 467 Tragedy as a Genre (A).** Investigates tragedy as both a literary genre and a way of interpreting the world. Considers both personal and cosmic aspects of tragedy in literary works from differing eras and cultures. 3 Cr.
ENL 470 Women's Popular Culture (A,D,I,W). Cross-listed as WMS 470. Explores women's popular culture to engender a cultural analysis. Considers such questions as how women's popular culture responds to women's psychosocial needs and how it functions within the dominant culture. Examines samples of the fiction and films that represent 20th-century American women's popular culture. 3 Cr.

ENL 472 Critical Approaches to Literature (A). Prerequisite: ENL 303 and nine credits of 300/400 level literature courses. Analyzes literary texts in terms of form and content. Requires students to write papers of analysis from at least three literary perspectives, classify and describe perspectives of various critics, and define critical terms. 3 Cr. Every Semester.

ENL 474 Caribbean Literature (A,W). Surveys 20th century literature from the Caribbean, including drama, poetry and narrative. Includes Anglphone writers as well as non-English works in translation. Examines literature in the context of historical and cultural issues such as the nature of Caribbean identity, the role of language, and the reconstruction of history. 3 Cr.

ENL 475 Postcolonial Literature (A,D,I). Surveys some of the most lively literature from areas of the world that were formerly European colonies: the Caribbean, Africa, and South Asia in particular. Introduces what is sometimes called the "post-Colonial condition," exploring what it is and how writers have responded to it. 3 Cr.

ENL 476 Magical Realism (A,D). Introduces the important 20th-century literary movement known as magical realism. Examines its roots in Latin America as well as its adoption in other locations, with particular attention to the historical context in each case. 3 Cr.

ENL 477 Issues in Science Fiction (A,I). Covers significant developments in the history of speculative and science fiction. Explores major themes such as sex, science and prejudice. Includes representative authors such as Wells, Asimov, H. Einlein and Le Guin. 3 Cr.

ENL 478 Seminar in World Literature (A,D,I). Provides a study of significant authors or topics in world literature (i.e., other than British/American). Content varies, with appropriate subtitles for each individual course. May be repeated for credit with significant change in topic and content. 3 Cr.

ENL 481 English Grammar (A). Provides a study of a variety of options writers have in applying transformational rules when they generate sentences. Also provides appropriate terminology for grammatical form and function. Introduces contemporary grammatical theories and analyzes passages of prose and poetry to illustrate the relationship between rhetoric and syntactic choice. 3 Cr.

ENL 482 Children's Literature (A). Explores the conventions of children's literature; development of genres of children's literature; and biographical, bibliographical and critical resources in the field. 3 Cr. Every Semester.

ENL 484 Young Adult Literature (A). Examines the needs of the young adult reader. Surveys genre literature as well as literature in content areas. 3 Cr. Every Semester.

ENL 491 Advanced Fiction Writers Workshop (A). Prerequisite: ENL 301. Focuses on the writing of fiction and the applied criticism of fiction. Requires students to bring manuscript to a polished state of form, style and content. May be repeated for credit. 3 Cr.

ENL 492 Advanced Poetry Writers Seminar (A). Prerequisite: ENL 302. Focuses on original poetry writing and applied criticism. Requires intensive critical discussion, revision, and some consideration of work by selected contemporaries. May be repeated for credit. 3 Cr.

ENL 493 The Creative Essay (A). Primarily a writing course in which students "workshop" essays. Explores the historical evolution of the essay and its new forms. Requires students to read a variety of essays and create their own. May be repeated for credit. 3 Cr.

ENL 495 Literature of the Holocaust (A,I,W). Prerequisite: Instructor's permission. Provides for readings and discussions concerning Hitler's attempted destruction of the European Jews, both fiction and non-fiction, including the work of survivors and victims. Incorporates esthetic, moral, and political perspectives, with special emphasis on the relevance for our time. 3 Cr.

ENL 496 Sex and Censorship in Literature and the Media (A,I,W). Cross-listed as WMS 496. Considers the expression of sexual themes and censorship of them—in contemporary literature, film and media. Includes topics such as the erotic in art, definitions of pornography and obscenity, evolution of censorship standards and practices, the Hollywood Code, the US Commission on Obscenity and Pornography (1970) and its critics, and recent feminist perspectives. 3 Cr.

ENL 499 Independent Study in English (A). To be defined in consultation with the instructor-sponsor in accordance with the procedures of the Office of Academic Advisement prior to registration. 1-3 Cr.

Environmental problems are among the most urgent issues facing our civilization. In order to manage Earth's environment well, we must understand the processes that shape its surface, control the chemistry of our air, water, and soil, and produce the biological and other resources upon which humans depend. Ecology is the study of animals, plants and other living organisms and their interactions with the physical and chemical environment. Through a curriculum with a common core and a focused track, environmental science majors develop conceptual and technical knowledge and skills for using the disciplines of ecology, chemistry and the earth sciences to understand and solve environmental problems. Four concentrations are offered in the environmental science major: aquatic ecology/biology, terrestrial ecology/biology, environmental chemistry, and the earth sciences. After declaring a major in environmental science with the department secretary located in 105 Lennon Hall, (585)395-5975, a faculty advisor in the selected track will be assigned.

Minors in Environmental Science and in Environmental Studies are offered for non-majors (see below). Contact the department secretary in 105 Lennon Hall, (585)395-5975, for information and for an appointment with the department chairperson to set up an individual course of study.

Major Requirements

The major requires a minimum of 62-73 credits balanced between required courses in the core curriculum (38 credits) and required, elective, or co-requisite courses in the area of concentration (24-36 credits).

Environmental Minors—Environmental Science/Environmental Studies

The environmental science minor (18 credits) prepares students for postgraduate education or employment in environmentally related fields. To ensure maximum breadth and depth of training, the schedule of elective courses for the minor in environmental science must be in disciplines other than the student's own major and be formally developed with the department chairperson.

300 and 400-level electives by advisement (7 credits minimum)*

*Biological sciences majors are required to take CHM 303 Analytical Chemistry as one elective course.

The environmental studies minor (18 credits) offers students a variety of scientific, social, economic, political, and literary perspectives on environmental issues. Gaining these perspectives will help students become environmentally literate citizens and employees.

ENVIRONMENTAL SCIENCE AND BIOLOGY COURSES

ENV 111 Principles of Biology (A,L). Cross-listed as BIO 111. Open to non-majors. Required for environmental science majors. Through lectures and laboratory activities, examines the structure and function of living systems from cells to the biosphere as a whole. 4 Cr. Every Semester.

ENV 201 Environmental Science (A,N). Non-majors only. Environmental science is an interdisciplinary study combining ideas and information from the natural and social sciences. The eight integrated themes of lecture and discussion are biodiversity, sustainability, connections in nature, pollution and its prevention, population growth, energy consumption and efficiency, solutions to environmental problems, and the importance of individuals changing their lifestyles and working with others to bring about environmental change. 3 Cr. Every Semester.

ENV 202 Environmental Science (A,L). Required for majors. Open to non-majors. Environmental Science is an interdisciplinary study combining ideas and information from the natural and social sciences. The eight integrated themes of lecture and discussion are biodiversity, sustainability, connections in nature, pollution and its prevention, population growth, energy consumption and efficiency, solutions to environmental problems, and the importance of individuals changing their lifestyles and working with others to bring about environmental change. Laboratory and field activities emphasize hands-on applications of environmental science methods, problem solving, and proper writing of laboratory reports. 4 Cr. Every Semester.

ENV 303 Ecology (A). Cross-listed as BIO 303. Prerequisites: ENV 111 or ENV 202. Ecology addresses interrelationships among organisms and the physical environment. Considers energy flow, nutrient cycling, population and community dynamics, principles of animal behavior, and natural history in lecture, laboratory and field studies. 4 Cr. Every Semester.

ENV 316 Eco-citizenship (A,I). Prerequisite: Junior or senior status. Addresses questions such as: What scientific principles determine how humans can and cannot use the environment? What are the critical environmental problems in the U.S and the world? How can people act individually and collectively to solve environmental problems? Includes an environmental action project. 3 Cr.

ENV 319 Biological Oceanography (A). Cross-listed as ESC 319. Review of the ocean's physical, geological and chemical properties followed by study of the classification, biology and life history of marine animals and plants. Concludes with ecology of selected marine ecosystems such as intertidal, deep sea and coral reef. 3 Cr.

ENV 400 Plant Diversity (A). Prerequisite: ENV 303. Introduction to the scientific study of plant taxonomy. Lecture topics include plant morphology and ecological adaptations, reproductive biology, evolutionary history, and principles of plant classification. Laboratories and field work survey the diversity of plants and teach the use of technical keys for plant identifications. 4 Cr. Even Fall

ENV 405 Plant Ecology (A). Prerequisite: ENV 303. Introduction to the scientific study of plant ecology. Topics include population and community dynamics, evolution of life history traits, physiological responses to environmental stresses, plant-animal interactions, and the role of vegetation in ecosystem processes. Field and laboratory studies explore experimental and analytical techniques used in plant ecology. 4 Cr. Odd Fall.

ENV 406 Wildlife Ecology (A). Prerequisite: ENV 303. Introduction to the scientific study of wildlife biology. Lecture topics include population ecology, behavior, nutrition, disease, habitat management, predator prey systems, economics, and the human dimensions of wildlife management. Laboratories and field work include radio telemetry, census methods, aging white-tailed deer, and computer modeling. 4 Cr. Even Fall.
ENVI 413 Topics in Plant Biology (A). Prerequisite: ENV 400 or 405. Reviews recent scientific literature while addressing selected topics in plant biology, ecology or systematics. 3 Cr.

ENVI 419 Limnology (A). Prerequisite: ENV 303. Introduces students to the physical, chemical and biological characteristics of lakes and streams. Topics include top-down: bottom-up control of food webs, eutrophication, nutrient cycling, acid precipitation effects on lakes, paleolimnology, etc. Recommended for students interested in oceanography and marine biology. Required for students in the aquatic ecology track of the environmental science major. ENV 421 is the complementary laboratory. 3 Cr. Fall.

ENVI 420 Limnology Laboratory (A). Prerequisite: ENV 303. Introduces students to the laboratory and field methods of limnology. Topics include sampling and identification of selected aquatic organisms, chemical analysis of water, and operation of physical and chemical sampling gear. Includes field exercises on lakes, using department vessels, and streams. Recommended for students interested in oceanography and marine biology. Required for students in the aquatic ecology track of the environmental science major. ENV 419 is the complementary lecture course. 2 Cr. Fall.

ENVI 421 Population Biology (A). Prerequisite: ENV 303. Introduction to the scientific study of populations. Explores the evolution and functioning of populations, including genetics, growth and regulations, life tables, the exclusion principle, predator-prey theory, species equilibrium theory, and human population growth. 3 Cr.

ENVI 422 Limnology Laboratory (A). Prerequisite: ENV 303. Introduction to the scientific study of limnology. Introduces students to the laboratory and field methods of limnology. Topics include sampling and identification of selected aquatic organisms, chemical analysis of water, and operation of physical and chemical sampling gear. Includes field exercises on lakes, using department vessels, and streams. Recommended for students interested in oceanography and marine biology. Required for students in the aquatic ecology track of the environmental science major. ENV 419 is the complementary lecture course. 2 Cr. Fall.

ENVI 436 Water Quality Analysis (A). Prerequisite: CHM 206. Introduces standard methods and analytical techniques associated with environmental chemistry. Students gain experience, including set up and trouble shooting, with UV-V spectrophotometry, wet chemical techniques by atomic absorption spectrophotometry, fluorometry, gas chromatography and atomic absorption spectrophotometry, by analyzing unknowns. Although the medium for analysis is water, methods are applicable to air samples, tissues and soils. 4 Cr. Even Spring.

ENVI 437 Biological Investigation and Data Interpretation (A). Cross-listed as BIO 437. Prerequisite: ENV 303. Introduction to descriptive statistics, data interpretation, parametric and non-parametric two- and multi-sample tests, linear regression, and hypothesis formulation and testing. 3 Cr. Spring.

ENVI 439 Conservation Biology (A). Prerequisite: ENV 303. Introduction to the scientific study of conservation biology. Examines current theories and data from evolutionary biology, ecology, and genetics as they relate to the conservation of biological diversity. Topics include causes of extinction, habitat loss and fragmentation, design of nature reserves, landscape ecology, application of basic principles of population biology to species conservation, and restoration ecology. 3 Cr. Spring.

ENVI 440 Herpetology (A). Prerequisite: ENV 303. Introduction to the scientific study of reptiles and amphibians. Explores their form, function, ecology, and evolution. Topics include anatomy, physiology, mating systems, population and community ecology of herpetfauna, and their
conservation biology. Includes lab and field study of identification techniques and capture and census methods. 4 Cr. Odd Spring.

ENV 457 Marine Biology-Bahamas (A). Crosslisted as ESC 457. Prerequisite: One laboratory science course. Prepare in the fall semester for a two-week January intersession field experience in coral reef biology and geology on San Salvador island in the Bahamas. Study identification, behavior, and ecology of marine organisms in five habitats associated with coral reefs. Learn how to prepare a scientific field notebook and to design, conduct, and report on a personal research project. 3 Cr. Fall.

ENV 459 Mammalogy (A). Prerequisite: ENV 303. Introduction to the scientific study of mammals. Explores their form, function, ecology, and evolution. Topics include origins, anatomy, physiology, diet and feeding strategies, population and community ecology, and social systems. Laboratory and field activities emphasize mammalian classification, habitat selection, and population biology. 4 Cr. Odd Fall.

ENV 477 Field Biology (A). Prerequisite: ENV 303. Introduction to the flora and fauna of various habitats in Western New York. Topics include structure and function of communities, species identification, qualitative and quantitative assessment of communities and ecosystems, and general conservation theory and practice. 4 Cr. Odd Summer.

ENV 483 Aquatic Invertebrates (A). Prerequisite: ENV 303. Introduction to the scientific study of aquatic invertebrates and their importance in stream and lake ecosystems. Topics include invertebrate biology and ecology, classification and identification (insects, crustaceans, mites, annelids, mollusks, etc.), use of dichotomous keys and sampling equipment, and preparation techniques. Prepares students to predict habitat or water quality conditions based on the invertebrate fauna present. 4 Cr. Odd Spring.

ENV 484 Fish Ecology (A). Prerequisite: ENV 303. Introduction to the scientific study of fish and fisheries. Topics include fish anatomy and physiology in relation to fish behavior and ecology, classification to the ordinal level, population dynamics (recruitment, growth, mortality, environment) and fishery management. ENV 490 is the complementary laboratory. 3 Cr. Even Spring.

ENV 488 Environmental Impact Analysis (A). Prerequisite: ENV 303. Introduction to the process of preparing an environmental impact statement (EIS) for a realistic local development project. Topics include the National Environmental Policy Act, the NY State Environmental Quality Review Act, relevant regulations and permit requirements (federal, state, local), and analysis of environmental impacts and alternatives. Depending on the number of credits and session offered, may include field work. 4-6 Cr. Even Summer.

ENV 490 Fishery Techniques and Fish Identification (A). Prerequisite: ENV 303. Introduction to laboratory and field techniques used by fisheries scientists. Hands-on activities include fish collection methods (electrofishing, nets) fish anatomy, fish identification, and quantitative analysis of fisheries data. ENV 484 is the complementary lecture course. 2 Cr. Fall.
**FILM STUDIES—INTERDISCIPLINARY MINOR**

The film studies program is an interdisciplinary minor designed to aid students in developing a broad understanding of the history of film, an awareness of film language used by filmmakers, and a critical viewing ability. The faculty for the program have been drawn from the Departments of Anthropology, Communication, English and History and bring a variety of experience and perspectives to the study of film.

Students interested in the film studies program should contact Department of English Chair Janie Hinds, 211 Hartwell Hall, (585) 395-2503, or jhinds@brockport.edu.

The film studies minor requires the completion of 16 credits as follows:

As the nations of the world become more interdependent, knowledge of the world’s languages and understanding of world cultures become more significant for effective global communication and peaceful coexistence. Language study prepares today’s students for tomorrow’s opportunities by supporting interdisciplinary instruction, developing cross-cultural understanding and preparing students to enter the global marketplace.

**Careers**

Foreign language majors enter the teaching field and many other professions. A second major or a minor in a foreign language is of great use in the humanities, fine arts and social and natural sciences. All levels of business and government need people trained in foreign languages and accustomed to dealing with matters from a global perspective. In addition, the study of foreign languages contributes substantially to valuable skills necessary for today’s job market, such as improved analytical abilities, creativity, cross-cultural business negotiations, communication skills, and problem solving.

**Majors and Language Course Offerings**

Students may major or minor in French or Spanish, double major in the two languages, or major in one of the languages and another field (see below for details for French and Spanish majors/minors).

Basic courses in American Sign Language, Arabic, Chinese, Italian, Japanese and Russian are also offered.

Civilization and literature courses are offered only in French and Spanish.

Culture courses in English (FCE), satisfy a College-wide requirement in the area of intercultural studies and general education.

**Foreign Language Requirements for General Education and Other Programs (BA degree candidates, teacher certification, international studies and international business majors).**

Currently, all students are required to take one semester (Beginning I or 111) of a foreign language for General Education. Students may meet the requirement in one of the following ways:

- a score of 85 or higher on the third-year foreign language Regents exam
- a score of 3 or higher on an AP exam in foreign language
- a score of 50 percent or higher on a CLEP exam in foreign language
- student has received college-level transfer credit in any foreign language
- student successfully places above the 111 level on a departmentally administered placement test
- student enrolls in a course
- student successfully completes a course of study abroad of at least five weeks duration and in a language that is deemed acceptable to meet the requirement for General Education.

Students pursuing a bachelor of arts, or a major in international studies or international business are required to demonstrate competency in at least one foreign language. This competency can be demonstrated by successful completion of the intermediate II level (212) of college language instruction or a more advanced course.

Teacher certification candidates are also required to demonstrate competency in a foreign language. Successful completion of the beginner II level (112) of college language instruction or a more advanced course will meet the requirement.
Placement Testing and Placement in Lower-division Language Courses

Students who would like to continue study of the language they took in high school are required to take a placement test before they enroll in that language course at the Beginner I (111) level. Please note: students who meet the language requirement for General Education through Regents, AP, CLEP, or transfer credit may NOT enroll in and receive credit for the 111 level language course for which they received a waiver since they are considered to have fulfilled that level. Students may audit the 111 course with the permission of the instructor if necessary.

For language courses beyond the 111 level, students who would like to continue study of the language they took in high school are strongly encouraged to take the placement test. However, the following guidelines may also be used for placement in language courses:

- Course 112 is open to students with 1-2 years of high school language.
- Course 211 is open to students with 2-3 years of high school language.
- Course 212 is open to students with 3-4 years of high school language.

For more information related to foreign language requirements, waiver procedures, and current test schedules, consult the departmental home page on the Internet at http://www.brockport.edu/~forelang/index.html.

Language Laboratories

A language media center with equipment for use with a variety of instructional software is housed in 110 Tower Fine Arts Center.

Study Abroad

The department sponsors semester-abroad and/or summer programs in Tours, France; Cuernavaca, Mexico; and San Jose, Costa Rica. A new program in Puerto Rico is being developed. Internships are available in Costa Rica and Mexico. Students may also participate in study programs in various other countries. Foreign language majors are expected to participate in a study-abroad program in a French- or Spanish-speaking country, as appropriate.

Credit by Examination

College credit and/or waivers of certain foreign language courses may be obtained by satisfactory scores on CLEP, Regents College Examinations, Advanced Placement Foreign Language Examinations of the College Board Examinations, and other examinations accepted by SUNY Brockport. The CLEP must be taken before taking 300- and 400-level courses.

Such credit and/or waivers will not reduce the number of credits required in coursework for the major. For information on credit by exam at the upper-division level, please contact the department.

Awards for Students Sponsored by the Department

Each year, the department awards the Jorge Marti Prize to an outstanding student in Spanish, and the Eric Steel Prize to an outstanding student in French. In addition, the Departmental Scholar is selected from among seniors who expect to be graduated in May, August or December of the corresponding year. He or she is selected on the basis of grade point average, grades in the foreign language major, and strengths in other subjects.

Teacher Certification Program

Students interested in specific requirements in the teacher certification program should consult the members of the Department of Education and Human Development. All French/Spanish transfer and SUNY Brockport students seeking certification in French or Spanish must pass a content area examination given by the New York State Department of Education. In addition, any transfer student wishing to complete teacher certification in French or Spanish who has not completed the French or Spanish major at Brockport, must complete at least one 400-level French or Spanish course at Brockport.
