About the Bill Evans Dance Teachers’ Intensives

Bill Evans and his distinguished teaching colleagues have devoted much of their professional lives to developing educational methods and materials that allow dancers of all ages to become healthier, more expressive and more well-rounded artists and human beings. The Bill Evans summer dance programs for teachers provide a learning environment that generates trust, self-esteem, peer support and physical, mental and spiritual regeneration.

All faculty share underlying values, and participants are able to make quantum leaps of understanding and embodiment in a short time. Over-arching themes and underlying concepts unify all courses, so that students have multiple opportunities each day to experience transformative ideas in different dance and movement forms. Participants develop relationships with peers from across the continent that provide networks of support throughout the year. The Bill Evans Dance Intensives have become a major international center for the training of both established and emerging contemporary dance teachers. These programs are also appropriate for college/university graduate dance majors who value whole-person education and look forward to teaching careers in the future. Dance education majors at the undergraduate level have also participated successfully.

The genuine warmth of the faculty and returning participants contribute positively to the regenerative qualities of the total experience for participants in these unique intensive workshops. The College at Brockport dance studios are spacious and beautifully designed and cared-for, providing an excellent environment for focused immersion in the stimulating content and creative spirit of the curriculum and for relaxed and productive interaction with other participants.

“I am writing tonight to tell you (there's no way I COULD tell you, really) how much it meant to me and did for me to have the opportunity to study with you and dance with you this past summer. It brought me back to life, really, rescued me. I'm still in early stages of assimilating all the wonderful feelings, perceptions, images, clarity, connectedness-es, happiness that you and your work have given to me and my dancing and teaching. Teaching is more fun, interesting, alive, easier than before, dancing is like I just ‘started’ dancing... You are amazing. How can anyone be so masterful and so open, sensitive, delicate, generous, warm... all at once? ....so many dancers and teachers I met at your workshops are gifted, and are wonderful people to know, and I feel I have a new tribe or dance-family.” –Participant in 2011 workshops

"Bill is one of the best teachers in America. He has a fluent, lovely understanding of movement which he conveys very well. He has enormous loyalty and everywhere he goes to teach, people come flocking." --Daniel Nagrin

“The development of Bill’s technique has created a truly organic form of contemporary dance. His masterful teaching style has touched students for decades. Many of his former company members have gone on to make significant contributions to the art of dance performance, both onstage and through dance
education, in studios, colleges and universities.” –Virginia Wilmerding, Former President, International Association for Dance Medicine and Science

"Evans has devoted his life to developing his own technique. Students from all over the country flock to Evans to understand his way of moving, which integrates his intensive study of kinesiology and anatomy with training in ballet, jazz, tap and modern. His work lives and breathes at the literally hundreds of schools, studios, universities, colleges, high schools and companies where Evans has taught, performed and choreographed." –Susie Eley, Dance Teacher Magazine
