Civic Engagement Student Leadership Community Building

Program, Project or Service Description

Resident Assistant/Townhomes Assistant Program

Program, Project or Service Learning Outcomes

- Resident Assistants/Townhomes Assistants will be able to:
- Create and implement community building initiatives in residence hall communities.
 - Identify multiple levels of diversity, including the ongoing development of their identity, and create an inclusive community.
 - Apply interpersonal skills that increase their ability to work with others, effectively communicate, and develop healthy relationships.
 - Apply leadership skills that enhance their ability to achieve their personal and professional goals, throughout college and beyond.
 - Assess conflict and crisis situations and identify the appropriate response.
 - Relate their formal academic learning to their experience in the residence hall.
 - Arrange priorities to manage stress and responsibilities.
 - Summarize College policies and procedures to educate residents, hold students accountable and create a safe environment where students can be academically and socially successful.

-Identify campus and community services, refer students to such services and help students develop a connection to the College.
