REPORT FROM THE LONG RANGE PLANNING COMMITTEE

The Long Range Planning Committee recommends the adoption of Option Two for the 1979 Summer Session, i.e. Session I (five weeks) to begin on May 21 and end on June 22; and Session II (five weeks) to begin on June 25 and end on July 27. The advantages over the four and a half week session are that the student have more time to study and that starting on a Monday and ending on a Friday is easier to comprehend.

The Committee gives no validity to objections concerning the Carnegie concept of the unit, the maximum hours objection to the 4 1/2 week proposal and the problems of laboratory courses. All of the objections to the 4 1/2 week proposal could have been or have been answered. The elimination of the August session is due solely to the presence of the Special Olympics on the Campus.

It is understood that individual Departments may obtain approval to schedule courses during August, as long as they do not conflict in location with the Special Olympics.

Edward Van Duzer
Chairman

Approved, subject to ratification by the Senate, by the Senate Executive Committee under the provisions of Article Three, Section 6, Constitution and Bylaws.

Charles Jenkins
President, Faculty Senate

Note: The Executive Committee deplores the administrative delays on this matter, and urges that a better process be developed for the future.
