Resolution #4, 1978-79
Meeting date: 11/6/78

Admissions Thrust Resolution

Whereas all members of the college community should be concerned with student attrition in particular and improvement of the campus learning and living environment in general, and

Whereas the pre-registration and registration periods provide an excellent opportunity for faculty-student dialogue in terms of course advisement and discussion of general student concerns, it is recommended that:

1. Students, particularly any who indicate an intention to leave the college, should be encouraged to meet with faculty members on an individual basis.*

2. Faculty members should make referrals of student problems to appropriate offices and follow-up where necessary.

3. Following the departmental major and minor course reservation period, each department utilizing major/minor reservation should contact majors and minors who have failed to reserve courses to determine why they have not taken advantage of the opportunity.

   When a student indicates that he or she is not returning to school, the Chairperson or appropriate advisor should meet with the student to discuss the decision.

4. A system will be developed that will identify students who could register, but did not. Their names will be sent to advisors who should contact them to determine why they have failed to register.

* Faculty members should make a general statement in classes urging students who are considering leaving to meet with the faculty member and/or their academic advisor to discuss their future plans.
