Resolution # 29  1990-91

TO:  President John E. Van de Watering

FROM:  The Faculty Senate  Meeting on 4/15/91  (Date)

RE:  X I. Formal Resolution (Act of Determination)
     II. Recommendation (Urging the fitness of)
     III. Other (Notices, Request, Report, etc.)
     For your information

SUBJECT:  Revisions to the Graduate Provisional Certification
          Programs in Secondary Mathematics (7-12), Secondary English
          (7-12), Secondary Social Studies (7-12), Secondary Biology
          (7-12), Secondary Chemistry (7-12), Secondary Earth
          Science (7-12), Secondary Physics (7-12) and Elementary
          Education (N-6)

Signed  ___________________________  Date Sent 4/17/91
(For the Senate)

TO:  The Faculty Senate

FROM:  President John E. Van de Watering

RE:  I.  Decision and Action Taken on Formal Resolution
     a.  Accepted. Effective Date  9
     b.  Deferred for discussion with the Faculty Senate on
     c.  Unacceptable for the reasons contained in the attached explanation

II, III.
     a.  Received and acknowledged
     b.  Comment:

DISTRIBUTION:  As attached best.

Distribution Date  4/17/91  Signed:  ___________________________
(President of the College)
PROPOSED CHANGE IN GRADUATE
PROVISIONAL CERTIFICATION PROGRAMS

Background:

In 1984-85 the College developed alternate M.S. programs for graduate students who did not have a provisional teaching certificate. These programs were designed initially for Empire State Fellowship winners in mathematics and sciences who needed to be matriculated in a program in order to receive their awards and subsequently to provide a certification route for a large number of baccalaureate degree holders who were attracted to teaching as a career. These alternate programs were built upon the undergraduate certification programs then in place and every attempt was made to keep the required hours within the typical M.S. degree range. The result was a series of 39 hr. programs as described herein.

During 1988-90 all undergraduate certification programs were revised and in every case the revisions included additional requirements in professional education and the arts and sciences. In March of 1990, we informed the State Education Department that we would revise the M.S. in Education programs so as to make them consistent with the newly revised undergraduate programs.

Now that the undergraduate programs have been approved by the College, we are requesting approval of revisions of the graduate programs consistent with those made in the undergraduate programs. These changes do not apply to the regular 33 hr. M.S. in Education programs for persons with undergraduate provisional certification.

Each secondary level program includes the addition of a second course in pedagogy and a graduate seminar that accompanies student teaching. In the past students were required to take the seminar without credit. The new secondary level program requires 45 hours for completion. The elementary program looks quite different from the current program but the changes are identical to those made in the undergraduate program. The additional six hours include the addition of 3 hours of generic pedagogy and 3 hours of specific applications in mathematics, science, language arts and social studies. This revision also requires a 45 hour program.

The revised secondary programs are attached and the new courses are identified on the course of study for each. Since the elementary program is significantly different, I have attached both the old and new programs. Also, following this page is a summary of the changes.

Donald W. Johnson, Chairperson
Education and Human Development

SAMPLE EXISTING PROGRAM

ALTERNATE M.S. IN EDUCATION: SECONDARY MATHEMATICS

Total Hour Requirement: 39 semester hours. In addition, a culminating project or thesis is required. The specific courses included in the program must be approved by the advisor.

1. Basic Sequence

   - PSH 584 Adolescence (3)
   - EDI 532 Methods of Teaching Secondary Math (3)
   - EDI 540 Practicum in Secondary Math Education (9)

   15 hours

2. Professional Education

   - EDI 603 Educational Measurement and Evaluation
   - EDI 622 Advanced Secondary School Curriculum: Mathematics
   - EDI 686 Problems: Secondary School Mathematics Education
   - EDI 792 Seminar in Secondary School Mathematics Education

   (During the seminar, students normally complete the culminating project or thesis).

   12 hours

3. Arts and Sciences Electives

   In the area of certification, with advisement

   6-9 hours

4. Education Electives

   Selected with advisement.

   3-6 hours

TOTAL 39 hours
This program is designed for students without provisional certification who have a baccalaureate degree and a major in mathematics.

I. PREREQUISITES

Candidates must have a baccalaureate degree with a major in mathematics. Some students may be required to complete prerequisite courses before they are allowed to matriculate in this program. Matriculation is required and must be completed prior to taking EDI 530. All programs require one year of college-level study or its equivalent of a language other than English.

ALTERNATE M.S. IN EDUCATION

SECONDARY SOCIAL STUDIES 7-12

This program is designed for students without provisional certification who have a baccalaureate degree and a major in a social science.

I. PREREQUISITES

Candidates must have a baccalaureate degree with a social science major and a concentration in history. Some students may be required to complete prerequisite courses before they are allowed to matriculate in this program. Matriculation is required and must be completed prior to taking EDI 530. All programs require one year of college-level study or its equivalent of a language other than English.

Practicum

EDI 510 Practicum in Elementary Education  

Elective

9 hours

3 hours

TOTAL 39 hours

Notes:

1. An undergraduate or graduate course in developmental or child psychology is required as a prerequisite or corequisite.

2. Entrance requirements include an undergraduate G.P.A. of 3.0 or better and satisfactory scores on tests in basic skills and content areas.

3. There is a desirable sequencing of courses. Persons entering the program should consult an advisor immediately.

4. EDI 701 Introduction to Research is designed for students matriculated in the M.S. in Education: Elementary to acquaint them with a broad spectrum of quantitative and qualitative research methodologies. This is also an introduction to the culminating project or thesis and should normally be taken prior to the completion of 12 to 15 hours of graduate credit. Prerequisite: EDI 603, 695 or equivalent.

5. EDI 702 Project or Thesis is designed to facilitate completion of projects and theses. It should be taken during the final phase of the student’s program. Prerequisite: EDI 701.
PROPOSED

ALTERNATE M.S. IN EDUCATION

ELEMENTARY EDUCATION N-6

This program is designed for students without provisional certification who have an appropriate undergraduate arts and sciences major or equivalent.

I. PREREQUISITES

Candidates seeking certification as an elementary school teacher (K-6) must complete an academic major or concentration in a discipline generally considered as one of the liberal arts or sciences. Business, other professional programs or majors, and performance majors such as dance do not satisfy this requirement. All students must have completed the equivalent of one year of college-level study in a language other than English and a course in developmental or child psychology. Each must also demonstrate adequate achievement in English, science, mathematics and the social sciences. Normally, this means at least six credit hours beyond the introductory course in each field. Program advisors will determine adequacy of the candidate’s background and requirements may be waived based upon the individual student’s life experience and background.

II. REQUIRED COURSES

1. Initial Sequence

   EDI 530 Foundations of Education (3)
   EDI 505 Literacy I (3)
   EDI 506 Dimensions of Teaching with Lab (6)
   EDI 515 Literacy II (3)
   EDI 516 Applications of Teaching with Lab (6)
   EDI 6XX Elective in Exceptionality (3)
   EDI 555 Practicum in Elementary Education (9) (with seminar)

2. Advanced Elementary Education Core Courses

   EDI 602 Elementary Curriculum (1) (to be taken after EDI 555)
   EDI 603 Educational Measurement and Evaluation (3)
   EDI 700 Graduate Culminating Seminar (3)

3. Advanced Methods Course

To be selected with advisement and taken after EDI 555

TOTAL 45 hours
NOTES:

1. Prior to being allowed to enroll in EDI 506, the student must pass the National Teacher Examination (NTE) Core Battery Tests of Communications Skills and General Knowledge.

2. Entrance requirements include an undergraduate Grade Point Average (GPA) of 3.00 or better on a 4.00 scale, experience working with children, and appropriate graduate application forms.

3. There is an appropriate sequencing of courses. Persons entering the program must consult an advisor immediately.

4. EDI 602 Seminar in Elementary School Curriculum must be taken after completion of EDI 555.
