NOTES:
T.M.

Recently there have been a number of inquiries about verifying whether or not a student was employed by the college. Also, in the past, student employee names have appeared on the web site where people can look-up salaries of state employees. I looked this morning to see if any of my student employees appeared on the list and currently they do not. However, graduate assistants do appear on this list. (You can not be a graduate assistant without being a student).

Therefore I would like to propose that the following highlighted, underlined portion be added to the College's directory information statement.

The College, in accordance with the provisions of the Family Educational Rights and Privacy Act of 1974, may disclose directory information without the written consent of the student. Directory information includes name, address, e-mail address, telephone number, date of birth, photograph, most recent previous school attended, dates of attendance, field of study, degrees, honors and awards conferred, on-campus student employment, participation in officially recognized activities and sports, and height and weight of athletic team members.

Thank you for your consideration.

Peter
